Sihanouk Accuses CIA of Death Plot

PARIS (UPI)—Prince Norodon Sihanouk of Cambodia accuses the Central Intelligence Agency of trying to kill him and undermine his government.

In an article by Sihanouk for the Feb. 26 issue of the magazine Young Africa, he says:

"Since 1959, the Pentagon and the CIA have spared no efforts to get rid of me and my family.

"They have encouraged secession, organized plots, tried to murder my parents, sent killers against and now they are backing our country's traitors."
